

## Farm & Forest Growers Cooperative

### 2025 Climate Smart Tree Seedling Sale

Order Deadline: May 1, 2025 \*\* or until trees are sold out.

\*\* First come, first serve no guarantees until confirmation of order.

#### Climate Smart Trees

Climate smart tree seedlings are sourced from specific central and southern regions of MN to capture the genetic diversity of dozens of mother trees, and then planted up to 200 miles further North to assist forests in adapting to a rapidly changing climate regime.

These climate smart tree seedlings are grown by small-scale farmers who are members of the Farm & Forest Growers Cooperative. **Buy Local, Support Minnesota Farmers!**

#### **Plug - Containerized stock, plugs vary by species, 6-8" depth, 1-2" width.**

Species	Size	Price	Seed Source County	Remaining Available	Number Requested
